

THE TRAVELLING THREAD

The current exhibition *The Travelling Thread* with intricate hand and machine embroidery by 23 members of the '84 Group' is a colourful and fascinating display of decorative and wearable art. The group formed in 1984 after a series of workshops exploring the techniques of machine embroidery. They use contemporary textile techniques incorporating stitch, print, paint, natural and commercial dyes and recycled materials in a variety of garments, wall hangings, bags and pictures.
